PROGRAM ADVISORY COMMITTEE CHAIRMAN'S REPORT

The 1987-88 school year saw a number of changes which affected the Program Advisory Committee and APRCHH. Two meetings were held during the year, both jointly with the PAC from APRCVI. The first meeting was concerned mostly with reviewing the Kendall Report and providing reactions for the APSEA regulations for an annual assessment of programs and services, criteria for residential school placement, and the structure of the PACs.

Based on the discussions held at the first meeting, the chairpersons of the two PACs and the Superintendent met to formulate proposals for the two groups and presented for discussion.

After considerable deliberation, the PACs agreed to recommend a new structure for a single Program Advisory Committee to the APSEA Board. This would incorporate the functions of the former two committees and provide for more complete representation of departments of education, school districts, parents, and disabled persons. It was further recommended that at least one meeting a year be held at each resource centre and that the role of the committee be to advise on programs and services.

The PACs also decided to forward a recommendation to the APSEA Board that regulation 31 on an annual assessment process be replaced with a policy on ongoing evaluation of programs and services. Finally, it was recommended that APSEA produce an annual report incorporating all APSEA activities including those at both schools.

The 1987-88 school year saw the end of one era at APRCHH and the beginning of another. Dr. Peter Owsley retired as Director of APRCHH. All PAC members join in thanking Dr. Owsley for his many years of fine service and wish him all the best in the years to come. The PAC was pleased that the transition to a new Director was made easy by the movement of Mrs. Phyllis Cameron into that position. The PAC looks forward to working with her over the coming years.

As this is my last report as Chairman, I would like to express my particular thanks to all of the members of the APRCHH PAC over the past 5 years, to the Directors and staff of APRCHH, and to the APSEA Board. It has been a pleasure for me to be associated with all of you.

Respectfully submitted,

Tom Rich, Chairman

During the 1987-88 school year student enrollment was:

There was a decrease of seventy-three students in overall enrollment from the 1986-87 school year to the 1987-88 school year. This represents a 13.2 percent decrease in enrollment. In August, 1987 the Francophone Sector, New Brunswick Department of Education, assumed responsibility for educational services to 80 francophone students thus accounting for the high decrease in enrollment.

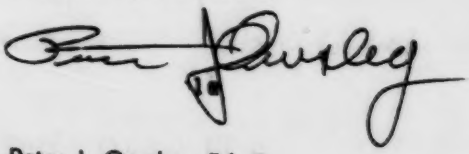
Conclusion

This will be the last report that I will write for the Atlantic Provinces Resource Centre for the Hearing Handicapped.

For the past twelve years I have worked diligently with the staff to improve educational opportunities for hearing impaired children in Atlantic Canada. After thirty-eight years as an educator of hearing impaired positions ranging from teacher, psychometrist, audiologist, and administrator, I decided to retire from the teaching profession.

The Director has appreciated the support of the Atlantic Provinces Special Education Board of Directors over the past number of years. I would like to wish the Resource Centre the best in the future in providing quality educational programs for hearing impaired children.

Respectfully submitted,



Peter J. Owsley, Ed. D.
Director

Dear Dr. Owsley:

Re: Annual Medical Report
for 1987-1988

In general the health of the students was excellent. Compared to previous years admissions to the School Infirmary were down considerably.

Minor injuries and illnesses were treated by the infirmary nurses without complication. Treatment and medications were administered competently and without error. No serious accidents (one minor fracture/nose). One male diabetic attends Atlantic Technical Vocational Centre.

Dental hygiene services were available January/February and greatly added to the improvement and management of good oral hygiene.

Three conferences were held at the school with Dr. W. Gill (psychiatrist) regarding behaviour modification and psychotropic medications. The assistance of Dr. Gill is much appreciated.

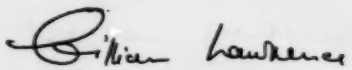
Other consultations have been arranged with neurologists, opthamologists, general surgeons and E.N.T. specialists. We are very impressed with the major improvement of one student undergoing facial re-construction.

All students on regular medication had routine blood checks at Highland View Regional Hospital. Six students in residence were receiving oral contraceptives. During the year I had 21 patient visits in my office and 204 patient visits at school.

Hopefully, arrangements will be completed to have Dr. Sylvia Keet Pediatrician, Developmental Clinic at Izaak Walton Killam Hospital for Children, visit the Centre during the next school year to assess rubella multihandicapped students in the Fearon Unit.

It is a great help to have nursing staff with such adequate communication skills. It makes my practice considerably easier and it is a pleasure to work with them.

Yours sincerely,



Gillian Lawrence, M.B., B.S.
School Physician
